RevitaLight

Innovation rooted in wisdom

Ayurvedic cosmetic ingredients

Unlock the secrets of Ayurveda - the ancient Indian science behind a new generation of natural, high-performance beauty products.

Our innovative ingredient blends combine years of wisdom with modern studies to deliver proven results. Each plant-powered complex features time-tested botanicals, rooted in a rich heritage of classical Ayurvedic formulations.

Welcome to the future of wellness, reimagined.

*Natural, vegan
& zero waste
blends*

Sustainable sourcing

Beyond product performance, we're committed to social responsibility and sustainability. In addition to embracing a zero-waste philosophy by reusing any leftovers from ingredient production, we source our materials from small-scale Indian farmers and women-led self-help groups, empowering local communities.

What is RevitaLight?

Skin Rejuvenating Botanical

RevitaLight is a unique blend of standardized herbal extracts with exceptional antioxidant, anti-aging properties.

It is a powerhouse ingredient for improving skin complexion, reducing signs of aging, resulting in rejuvenated and healthy skin & distressed tissues.

Clinical studies conducted on a cream with RevitaLight 1%, exhibit its potent anti-aging properties in terms of improvement in skin elasticity, skin firmness, even skin tone, and skin smoothness.

Ingredients

Indian Winter Cherry

INCI name - Withania somnifera root extract

Ayurvedic name - Ashwagandha

Benefits:

- Potent antioxidant properties help repair oxidative stress induced damage reducing aging signs like wrinkles, fine lines, blemishes and dark spots
- Relaxing, soothing and revitalizing effect on body, lowering cortisol level
- Boosts collagen formation enhancing skin-repair and cell-regeneration processes
- Stimulates production of hyaluronan which helps keeping skin hydrated and supple

Lotus Petals extract

INCI name - Nelumbo nucifera flower extract

Ayurvedic name - Kamal pushp

Benefits:

- Significant antioxidant and tyrosinase enzyme inhibition properties help address anti-hyperpigmentation
- Elastase enzyme inhibition properties make it very good for wrinkle correction and anti-aging benefits
- Photo protection properties against UVB irradiation
- Nelumbo is classified as 'varnya' (the substances that improve skin complexion and reduce dark spots) and 'vaya sthapak' (the substance that slows down the process of aging)

Functions & Benefits

- Helps improve skin texture
- Moisturizes and softens skin
- Minimizes free radical stress
- Helps ease overworked tissues and promote a calming and relaxing effect
- Helps promote anti-aging benefits
- Helps in lightening dark spots and hyperpigmentation

Typical Properties

INCI names	Withania somnifera root extract, Nelumbo nucifera flower extract
Appearance	Off white to brownish yellow, fine powder
Solubility	90% minimum
pH of 1.0% solution	5.5 - 8.0
Applications	Creams, Lotions, Serums, Gels, Sunscreens, Masks; Waterless formulations
Usage level	1.0% - 2.0%
Storage	Store in tightly sealed containers at room temperatures. Avoid exposure to excessive humidity & heat

Clinical studies findings

Skin Elasticity

Results were observed in 60 days from application of RevitaLight 1% cream twice daily on left side of the face in terms of skin elasticity.

Instrument used Cutometer.

Visual results of skin elasticity (Crow's feet area and Cheekbone area) improvement.

Day 0

Day 60

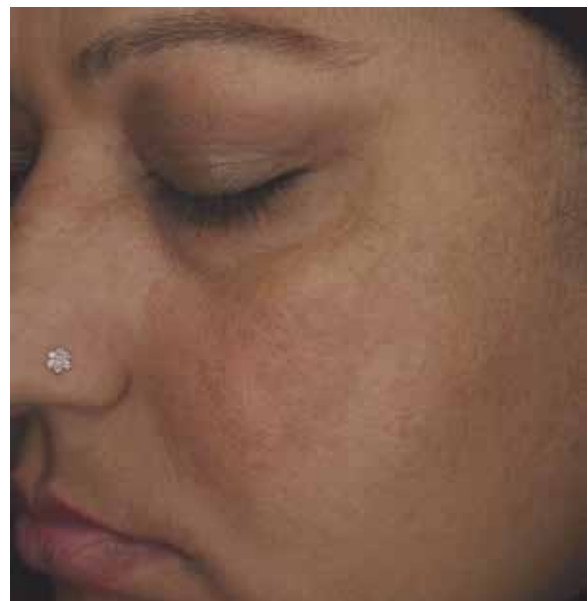

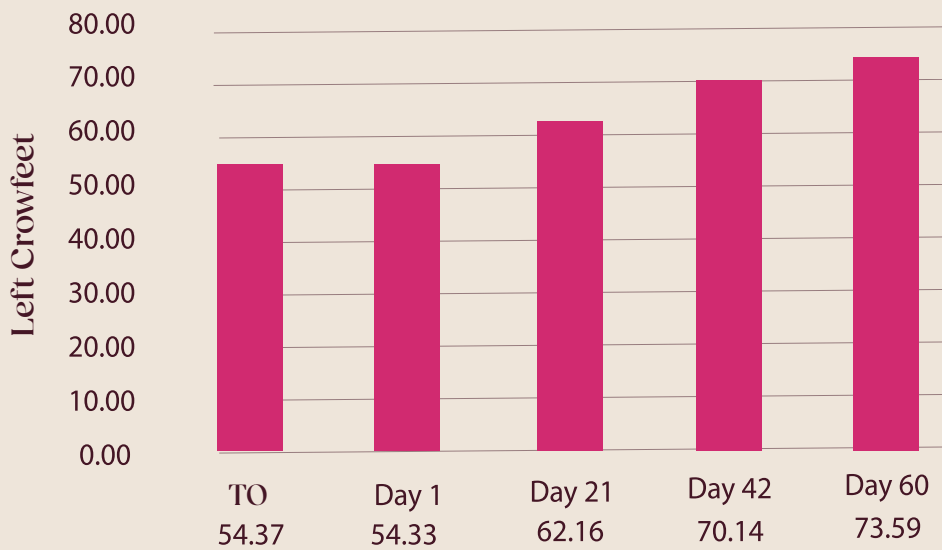

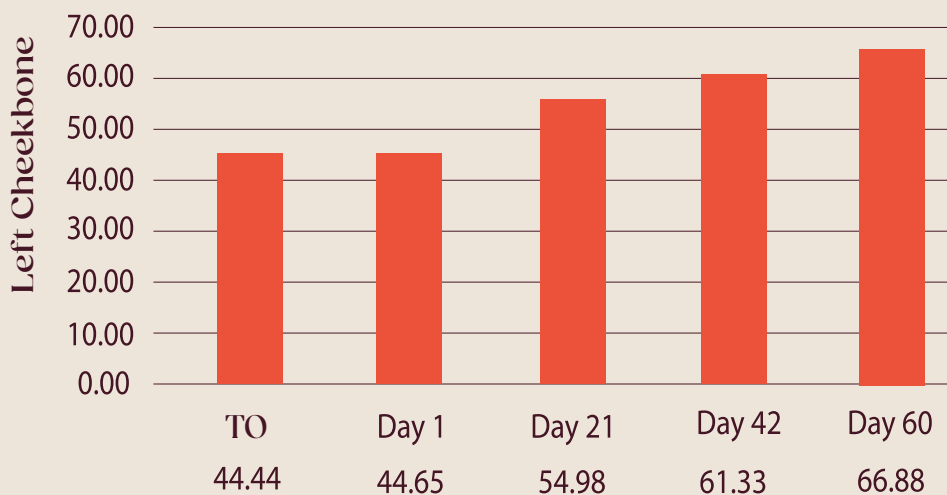

Table showing mean Skin Elasticity (Left Crow's feet and Left Cheekbone) data at TO to Day 56.

Test Site	TO	Day 1	Day 21	Day 42	Day 60	% Improvement
Left Crow's feet	54.37	54.33	62.16	70.14	73.59	35.34
Left Cheekbone	44.44	44.65	54.98	61.33	66.88	50.51

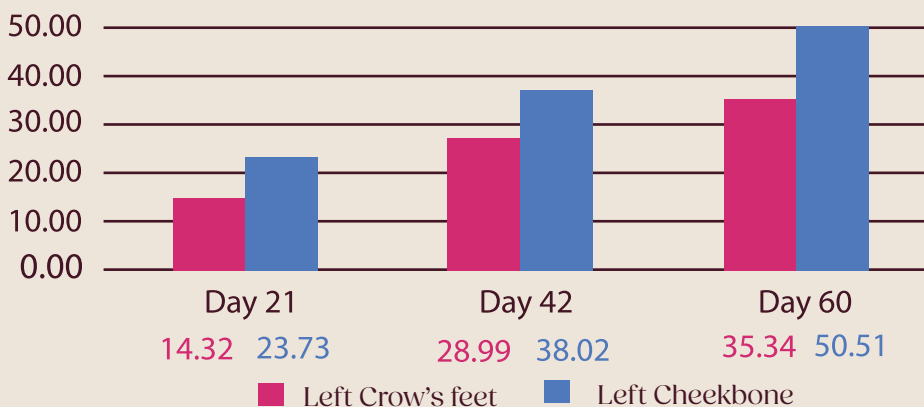

Graph showing skin elasticity (Crow's feet area) results at TO to Day 60.

Graph showing skin elasticity (Cheekbone area) results at TO to Day 60.

Graph showing skin elasticity % improvement (Left Crow's feet and Left Cheekbone areas) results at TO to Day 60.

A markable improvement is observed from the week 3 only.

Degree of wrinkle

Results were evaluated by a dermatologist in 60 days from application of RevitaLight 1% cream twice daily on left side of the face in terms of degree of wrinkle.

Visual results of degree of wrinkle (Crow's feet area) improvement.

Day 0

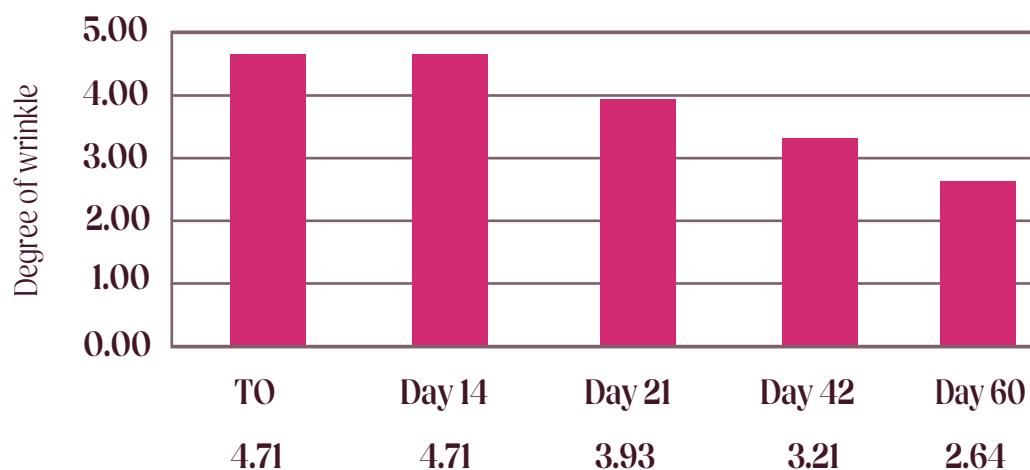

Day 60

Table showing mean Degree of Wrinkle (Crow's feet area) data at T0 to Day 60.

Degree of Wrinkle	T0	Day 14	Day 21	Day 42	Day 60	% Improvement
	4.71	4.71	3.93	3.21	2.64	43.94

Graph showing degree of wrinkle (Left Crow's feet area) results at T0 to Day 60.

Further Clinical Studies Findings

Skin Brightening

By Day 60, 17.18% improvement on Left Cheekbone area has been seen in terms of skin melanin content

Skin Moisturization

By Day 60, 33.88% improvement on Left Cheekbone area has been seen in terms of skin moisturization

Dermatologist's Assessment

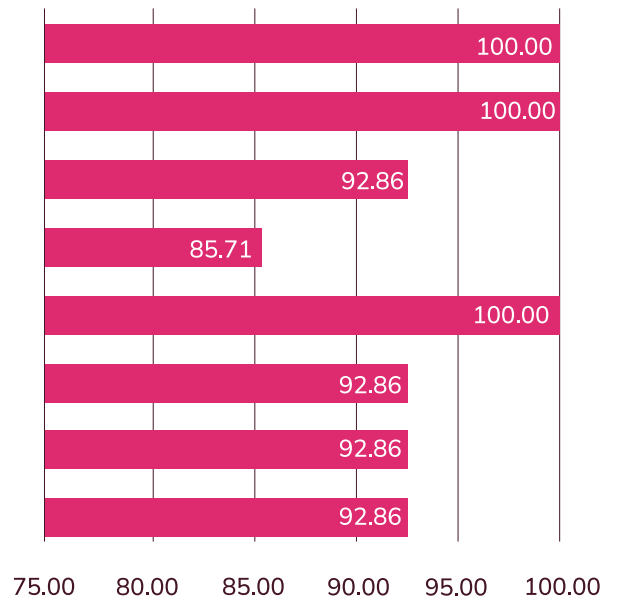

Skin moisture, skin firmness, skin smoothness, skin colour, and overall appearance of skin were visually evaluated by the dermatologist.

Parameter	T0	Day 1	Day 21	Day 42	Day 60	% Improvement
Skin moisture	2.64	3.00	3.07	3.57	3.71	40.54
Skin firmness	2.50	2.50	3.43	3.57	3.71	48.57
Skin smoothness	2.50	2.50	3.00	3.43	3.64	45.71
Skin colour	2.36	2.36	2.71	2.93	3.21	36.36
Overall appearance	2.71	2.71	3.29	3.71	3.79	39.47

As per the dermatologist an overall improvement in the parameters such as skin moisture (40.54%), skin firmness (48.57%), skin smoothness (45.71%), skin colour (36.36%) and overall appearance of skin (39.47%) was observed from the baseline through Day 60.

Subject Feedback

- Has skin tone become more even?
- Has skin brightened/lightened?
- Has overall appearance of dull, rough skin improved?
- Has skin texture improved?
- Has appearance of fine lines & wrinkles reduced?
- Does skin feel smoother?
- Does skin feel softer and supple?
- Does your skin feel hydrated and moisturized?

Summary

- 100% subjects agreed that their skin tone had become even and that their skin had become lighter
- 92.86% subjects agreed that their appearance of dull & rough skin had improved
- 85.71% subjects agreed that their skin texture had improved
- 100% subjects agreed that their appearance of fine lines & wrinkles had reduced
- 92.86% subjects agreed that their skin had become smoother, that their skin had become softer & supple & that their skin appeared hydrated & moisturized
