EcliptaRoots

Innovation rooted in wisdom

Ayurvedic cosmetic ingredients

Unlock the secrets of Ayurveda - the ancient Indian science behind a new generation of natural, high-performance beauty products.

Our innovative ingredient blends combine years of wisdom with modern studies to deliver proven results. Each plant-powered complex features time-tested botanicals, rooted in a rich heritage of classical Ayurvedic formulations.

Welcome to the future of wellness, reimagined.

*Natural, vegan
& zero waste
blends*

Sustainable sourcing

Beyond product performance, we're committed to social responsibility and sustainability. In addition to embracing a zero-waste philosophy by reusing any leftovers from ingredient production, we source our materials from small-scale Indian farmers and women-led self-help groups, empowering local communities.

What is EcliptaRoots?

*Hair Growth & Hair Fall
Reducing Botanicals*

EcliptaRoots is a unique composition of five wholesome herbal extracts providing multiple benefits such as:

- Hair growth stimulation
- Hair loss prevention
- Hair shine & texture improvement
- Hair volume enhancement
- Hair tensile strengthening

Also, thanks to its excellent antioxidant, anti-inflammatory, and healing properties, it helps control dandruff.

It has an unmatched safety profile, as all its ingredients have been widely used for centuries in external as well as internal administrations in traditional folklore and classical Ayurvedic formulations.

Ingredients

False daisy

INCI name - Eclipta alba extract

Ayurvedic name - Bhringraj

Traditional & Literature - Reported Benefits:

- Prevents hair loss, stimulates hair growth, prevents juvenile greying
- Anti-dandruff properties
- Increases hair thickness and volume
- Used as hair tonic in Ayurvedic and folklore practices for centuries, and has a wide range of benefits on the scalp and hair

Indian pennywort / Asiatic pennywort

INCI name - Centella asiatica extract

Ayurvedic name - Brahmi/Gotu kola

Traditional & Literature - Reported Benefits:

- Helps fight against oxidative damage to scalp
- Effective in healing of damaged, scarred cells
- Improves tensile strength of hair
- Helps promote hair growth and decrease hair loss
- Increases synthesis of collagen and reduce photo aging
- Improves scalp moisture and nourishment by increase of surface hydration state, and decrease in trans-epidermal water loss (TEWL)

Indian Gooseberry

INCI name - Phyllanthus emblica fruit extract

Ayurvedic name - Amalaki/Amla

Traditional & Literature - Reported Benefits:

- Helps promote hair growth as it increases cells number in dermal papilla of human hair follicles
- Excellent natural antioxidant - one of the richest sources of vitamin C
- Effective for its UVB damage protecting and photo-protective properties
- Potent hydration properties that nourish the scalp and help make it healthy and supple
- Improves tensile strength of both virgin and bleached hair
- Helps prevent hair loss

Indian Winter Cherry

INCI name - Withania somnifera root extract

Ayurvedic name - Ashwagandha

Traditional & Literature - Reported Benefits:

- Potent antioxidant properties help repair oxidative stress induced damage to follicles and help improve overall health of hair and follicles
- Imparts a relaxing, soothing and revitalizing effect on scalp, lowering cortisol level
- Boosts collagen formation enhancing scalp-repair and cell-regeneration processes
- Stimulates the production of hyaluronan which helps in keeping scalp hydrated and supple

Soap Pod

INCI name - Acacia concinna fruit extract

Ayurvedic name - Satala/Shikakai

Traditional & Literature - Reported Benefits:

- Gives relief in scaling, itching, dryness and greasiness of scalp
- Due to its significant anti-fungal properties, it also helps prevent dandruff and other fungal infections
- Gentle detangling, hair growth stimulating, split ends preventing, moisturising and lustre providing properties
- Traditionally used to gently cleanse and nourish hair for centuries in Ayurveda

Functions & Benefits

- Helps promote hair growth and prevent hair loss
- Helps nourish scalp
- Helps improve tensile strength of hair
- Anti-inflammatory properties fight swellings and prevent micro scars
- Helps protect scalp and hair from oxidative stress due to its anti-oxidant properties
- Helps enhance appearance of fullness of hair
- Helps improve hair texture
- Helps impart shine and lustre

Typical Properties

INCI names	Eclipta alba extract, Centella asiatica extract, Phyllanthus emblica fruit extract, Withania somnifera root extract, Acacia concinna fruit extract
Appearance	Light brown to brown, fine powder
Solubility	90% minimum
pH of 1.0% solution	5-7
Applications	Serum, Shampoo, Conditioner, Mask, Styling products. Waterless formulations
Usage level	1.0% - 2.5%
Storage	Store in tightly sealed containers at room temperatures. Avoid exposure to excessive humidity and heat.

Clinical studies findings

Hair growth

Results from thrice a week of EcliptaRoots shampoo 1% & daily application of EcliptaRoots serum 1% in terms of hair growth stimulation were observed in 56 days.

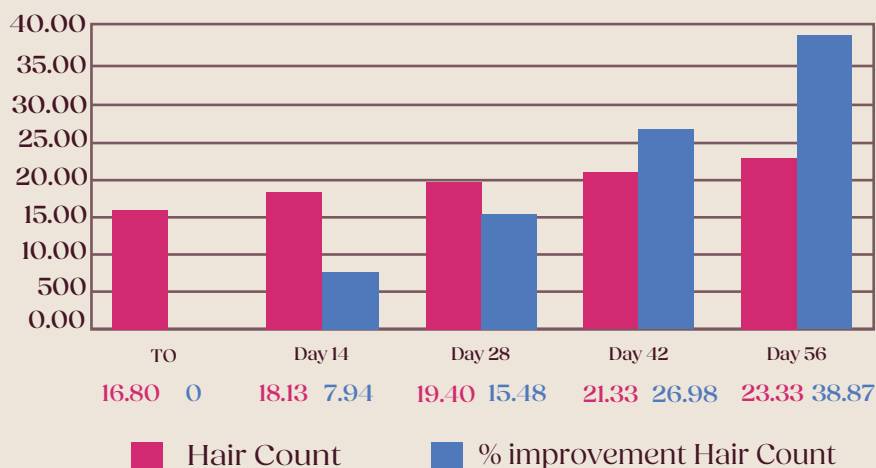

Instrument used DermLite.

Hair Count

Table showing mean Hair Count data at baseline (T0) to Day 56.

Mean hair count	TO	Day 14	Day 28	Day 42	Day 56	% Improvement
	16.80	18.13	19.40	21.33	23.33	38.87

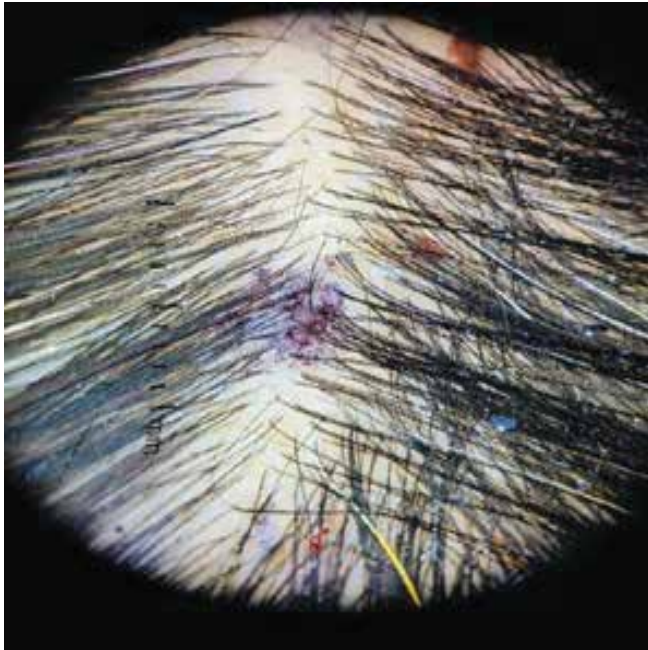

Graph showing mean hair count results at T0 to Day 56.

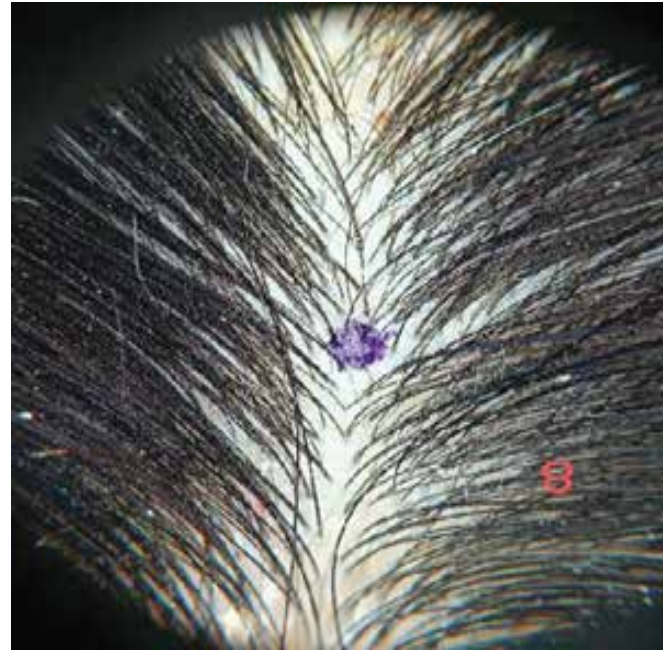

An improvement of 38.87% was observed in Hair count as per the DermLite in 56 days.

Visual results of hair count improvement.

Day 0

Day 56

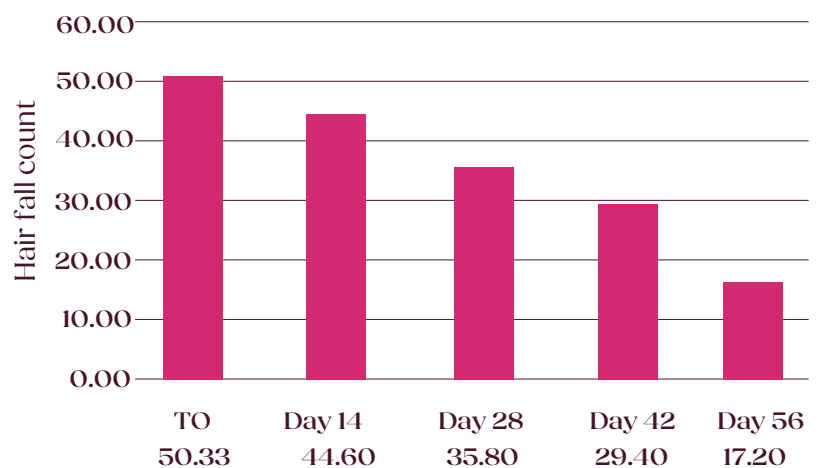

Hair Fall Reduction

Table showing mean Hair Fall reduction data at baseline (TO) to Day 56, carried out by the Hair Comb Test.

Mean Hair Fall Count	TO	Day 14	Day 28	Day 42	Day 56	% Reduction
	50.33	44.60	35.80	29.40	17.20	65.83

Graph showing Hair Fall reduction at TO to Day 56.

A notable reduction of 65.83% was observed in Hair fall count by Day 56.

Visual results of hair count improvement.

Day 0

Day 56

Dermatologist's Assessment

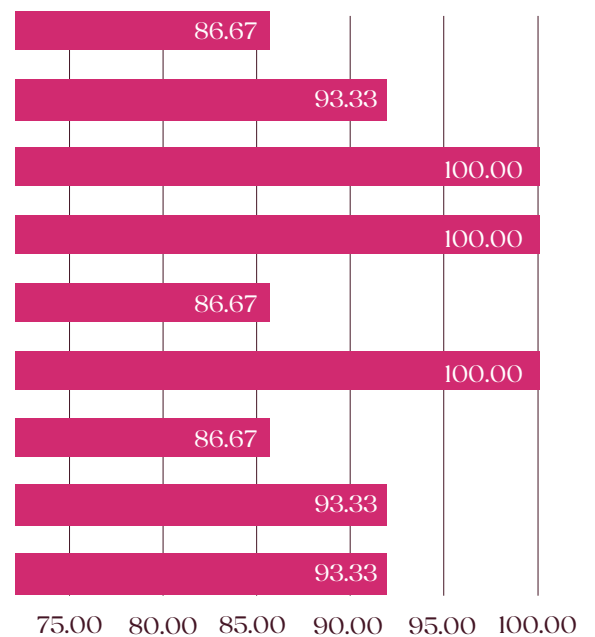

Hair growth, hair volume, hair shine, hair texture, overall appearance of hair and ASFS scale were visually evaluated by the dermatologist.

Parameter	TO	Day 1	Day 28	Day 42	Day 56	% Improvement
Hair Growth	2.87	3.00	3.13	3.87	4.00	39.53
Hair Volume	2.80	3.40	3.53	3.80	3.87	38.10
Hair Shine	2.67	2.87	3.13	3.47	3.67	37.50
Hair Texture	2.80	2.80	3.13	3.73	4.13	47.62
Overall Appearance of Hair	3.13	3.20	3.47	3.87	4.13	31.81
ASFS scale	3.93	3.40	3.00	2.20	1.80	54.24

As per the dermatologist, an overall improvement in the parameters such as hair growth (39.53%), hair volume (38.10%), hair shine (37.50%), hair texture (47.62%) & overall appearance of hair (31.81%), was observed from the baseline through Day 56. Also, there was a notable reduction in dandruff as per ASFS scoring of around 54.24% by Day 56 of the product usage.

Subject Feedback

- Has the dandruff visibly reduced?
- Has hair breakage reduced?
- Has hair become stronger?
- Does hair look more nourished than before?
- Has wet and dry combing force reduced?
- Has hair become thicker?
- Has hair shine improved?
- Has hair fall improved?
- Has hair appearance improved?

Summary

- 73.33% subjects agreed and 13.33% subjects strongly agreed that dandruff had visibly reduced
- 93.33% subjects agreed that hair breakage had reduced
- 100% subjects agreed that hair had become thicker and more nourished and hair had become stronger
- 86.67% subjects agreed that hair shine had improved and that the wet & dry combing force had reduced
- 93.33% subjects agreed that hair appearance had improved & that fall had reduced
